

# Ennaciri Mouad

## Front-End React/Next.js Developer

ennacirimouade1@gmail.com | +212 707820932 | <https://www.linkedin.com/in/mouadennaciri/> | <https://github.com/Mouad-Ennaciri>

### PROFIL

Frontend Developer specializing in React, Next.js, Vite, Tailwind CSS, and Vercel. Experienced in building responsive web applications, polished UI/UX, GSAP animations, dashboards, booking systems, and AI-powered features. Proficient with AI development tools including Codex, Claude, and OpenCode, with a focus on clean design and seamless user experiences.

### PROFESSIONAL EXPERIENCE

#### Frontend Developer Intern — Imfa Solutions

03/2026 – 06/2026 | Remote

- Contributed to the development of the Moroccan AI assistant platform “Lfahem” using Next.js and TypeScript
- Built modern and responsive user interfaces with Tailwind CSS and HeroUI
- Developed and integrated reusable UI components
- Collaborated with the development team using Git and modern development workflows
- Used AI tools to improve frontend development productivity and workflow efficiency

#### Internship (BootCamp Practical Experience),

Frontend React Development intern - Algorium academy

10/2025 – 02/2026 | Ouarzazate

- Applied a practical and modern front-end development workflow.
- Built responsive UI components based on design requirements and best practices.
- Worked in a fast-paced, practice-focused training environment.
- Collaborated with peers during hands-on coding exercises and team challenges.
- Implemented reusable React components to improve code structure and maintainability.
- Used Git & GitHub for version control and project organization.

#### Accounting Assistant — CZS Accounting Firm

10/2023 – 04/2025

- Assisted in accounting operations and financial reporting.
- Worked collaboratively within a professional team environment.
- Strengthened accuracy, organizational skills, and analytical thinking.

### PROJECTS

#### Car Rental Website (Tomobilty)

React, Tailwind CSS, GSAP, Supabase, Redux, tanstack query

- Built Tomobilty, a full-stack luxury car rental platform using React, Vite, Tailwind CSS, Supabase, and Vercel.
- Implemented booking, availability tracking, reservation management, and fleet administration.
- Developed admin dashboards for bookings, payments, customers, revenue, and vehicle status.
- Integrated Lemon Squeezy payments with online, manual, and partial-payment support.
- Added an AI assistant using Vercel AI SDK and NVIDIA Kimi API for customer and admin queries.

#### Landing Page Hackathon Project (BootCamp Project)

React, Javascript, Tailwind CSS, Shadcn ui

- Built responsive and interactive UI with React, JavaScript, Tailwind CSS, and Shadcn UI.
- Developed reusable components and integrated data from a public API.
- Deployed using GitHub Pages

### ACADEMIC EDUCATION

#### Frontend Web Development Bootcamp, JobInTech

Ouarzazate | Oct 2025 – Present

Intensive hands-on training in frontend web development with a strong focus on React.js. The program emphasizes designing and implementing scalable, responsive user interfaces, mastering component-based architecture, state management, and modern styling solutions. It also covers performance optimization, clean code practices, and real-world project development following industry standards.

#### Bachelor's Degree in Business Management, Cadi Ayyad University

08/2019 – 07/2023 | Marrakech

building a solid understanding of business processes, project coordination, and problem-solving, complementing technical skills in a professional environment.

### CERTIFICATES

- Learn React JS : CodeCademy - 12/2025
- Learn TailwindCss : CodeCademy - 12/2025
- Learn Git/GitHub : CodeCademy - 11/2025
- Learn JavaScript : CodeCademy - 11/2025
- Learn TypeScript : CodeCademy - 11/2025
- Learn HTML , CSS : CodeCademy - 10/2025
- Learn Bootstrap : CodeCademy - 10/2025

### SKILLS

- React
- TypeScript
- JavaScript (ES6+)
- Tailwind CSS
- HTML
- CSS
- Bootstrap
- Git & GitHub
- shadcn ui
- GSAP

### LANGUAGES

Arabic: Fluent

English : Native

French : Intermediate

### SOFT SKILLS

- Problem-solving
- Collaboration and teamwork
- Adaptability
- Organization
- Time management
- Curiosity & Fast learning
- Attention to detail
- Professional and serious mindset

### INTERESTS

- Vibe coding
- Artificial intelligence
- Web performance & UI animations
- Exploring new technologies
- Continuous learning
